Summary

Results-driven QA Automation Engineer with a proven track record in designing, implementing, andoptimizing automated testing frameworks. Proficient in industry-standard tools such as Selenium, JUnit, and Jenkins, streamlining the testing process. Skilled in scripting languages, including Python and Java, to create robust test scripts.

Experienced in comprehensive regression testing and integrating automated testing into CI/CD pipelines. Seeking to contribute technical acumen and passion for quality assurance to a dynamic software development team.

Experience

System Associate (Test Automation Engineer) • Infosys   May 2022 - Present

- Created and executed dynamic automated test scripts, scenarios, and test cases using proficientscripting languages like Python and Java.
- Played a pivotal role in API testing, validating functionality and integration points, contributing toa robust testing ecosystem.
- Utilized cutting-edge defect-tracking tools to identify, report, and track issues throughout testing, facilitating streamlined issue resolution.

Education

Bachelor of Computer Application • PCTE group of institutes   Apr 2018 - Jul 2021

Computer Science • Grade: 7.76

Projects

Leviton Inc   Jan 2023 - Present

Infosys

- Automated end-to-end testing for a web-based application using Selenium and Java, guaranteeing seamless functionality across browsers.
  - Integrated tests into the CI/CD pipeline with Jenkins, streamlining the testing process.
- Collaborated with cross-functional teams to create comprehensive test scripts, facilitating efficient testing processes
- As a QA automation tester, identified defects and reported them, contributing to the overall improvement of the software quality.

The LAM Research   May 2022 - Jan 2023

Infosys

- Executed comprehensive test plans and meticulously developed test cases for software applications, showcasing attention to detail and thoroughness.
- Conducted rigorous testing to identify and track defects, demonstrating a commitment to delivering high- quality software.

Skills

Selenium, BDD cucumber, JUnit, TestNG, JIRA, Cypress, Java, Python, JavaScript, MySQL, Postman, REST Assured, Maven, Jenkins, GitHub, Azure cloud, DevOps

Certifications

Infosys Certified Software Development Engineer In Test (SDET) ISTQB

Certified Foundation Level Tester (CTFL)

Infosys Certified Selenium Advance Automation Tester
